INTRODUCING THE ENTRY/EXIT SYSTEM

The rules and procedure
of border crossing
for non-EU citizens
will change soon.

Aim of the Entry/Exit System (EES)

The new system is scheduled to enhance:

- security and protection of external borders
- prevent and manage illegal immigration
- facilitate the identification of persons who do not respect rules of residence
- contribute to the prevention, detection and investigation of terrorist offences and other serious crimes

EES will be applicable:

- at the Hungarian – Ukrainian border crossing points
- at the Hungarian – Serbian border crossing points
- at the international airports (Budapest, Debrecen, Sármellék)

Who is subject to the EES?

Third-country nationals (non-EU nationals and non-EU nationals who do not have a residence card of family member of an EU national) who are entitled to enter Hungary for a short stay and who arrive at our country's external borders.

What personal data does the EES system store?

- data in the travel document
- place and time of the border crossing
- the calculation of the duration of the authorised stay
- traveller's facial image and fingerprints called 'biometric data' (will be collected during the entry at the border crossing point)
- refusal of entry, where relevant
